

WHERE DREAMS
BECOME HOMES

WE DESIGN YOUR RENOVATION

What Does That Mean?

It means we take care of space planning, floor plan re-design, additions, joinery design, interior design, detailed drawings, full selections of fittings, fixtures, finishes and furniture, selection schedules and tender or quote ready documentation. Use our builder or choose your own.

Welcome to Plush Design Renovations where we are excited to introduce you to our nine-step design process. This exceptional and proven system ensures a seamless and successful interior design and renovation experience for our clients.

Why? Because a **structured framework** brings order and consistency to every project.

We **manage your expectations** by clearly defining each step of the process **minimizing uncertainty** and surprises.

Our process establishes a comprehensive Scope of Works ensuring that all elements are considered allowing us to deliver results that **align with your vision**.

This process supports **accurate fee estimation** transparently so you have a clear understanding of the financial investment required and staged approach to fee payments.

We further **manage project time-lines** realistically allowing for efficient project management.

THE FOUNDATIONS

At Plush Design Renovations, we believe in establishing a strong foundation for every project. We prioritise three key pillars that form the basis of our design process:

Design

01

Our primary focus is to create aesthetically pleasing and functional outcomes that meet your vision and requirements. We pay close attention to your style preferences, lifestyle needs, and any specific design goals you may have.

Budget

02

We understand the importance of cost implications in any project. Our team works closely with you to establish a realistic budget that aligns with your goals. We provide transparent and detailed cost estimates to ensure there are no surprises along the way.

Time-Frame

03

Delivering projects within the specified time-frame is crucial to us. We carefully plan and coordinate each stage of the project, taking into account not only the overall completion date but also the timelines for individual milestones.

STEPS ONE TO SIX

01

Initial Consultation

When we discuss your needs, understand your vision, establish a foundation, and create a full scope of works for a comprehensive project proposal

02

Concept + Schematic

Where we gather information, develop a project brief and create conceptual designs and schematics to provide an overview of the design direction

03

Team Introductions

How we establish personal connections with proposed suppliers to create effective communication and start to develop a solid budget understanding

04

Design Development

Where we refine and develop concepts considering factors including functionality, aesthetics, materials, and spatial considerations to achieve your goals

05

Documentation

What is created to manage project timelines, keep within projected budget ideals, understand all selections, and deliver within desired timelines

06

Quotes + Tenders

Who receives a design and documentation package so suppliers and trades can quote on a specific set of schedules and parameters for transparency and budget

STEPS SEVEN TO NINE

By choosing Plush Design Renovations you can be confident that your project will be executed with professionalism, creativity, and attention to detail. Our nine-step process forms the backbone of our work, providing structure and guidance to deliver exceptional results within your budget and time-frame.

07 **Design Management**

Throughout the construction phase, we provide ongoing design management, coordinating with contractors, suppliers, and other professionals involved. This ensures that the design vision is executed effectively and any challenges are addressed promptly.

08 **Client Handover**

Once the project is completed, we conduct a final inspection to ensure that all design elements have been implemented according to the agreed-upon plans. We then hand over the completed project to you, ready for you to enjoy and inhabit.

09 **Follow-Up**

After the project is handed over, we believe in maintaining a long-term relationship with our clients. We provide post-project support and are available for any queries or further assistance you may require.

Plush Design Interiors

An interior designer plays a pivotal role in shaping the way people experience and interact with their surroundings. They combine artistic creativity with practical knowledge to transform spaces into functional, visually appealing, and meaningful environments that enhance the quality of life for the occupants.

Plush Design Renovations

An interior designer specialising in renovations with design documentation takes a holistic approach to transforming existing spaces. They merge creative design concepts with technical expertise, ensuring that the renovation is not only visually appealing but also well-planned, feasible, and executed to the highest standards.
